

## Can I review Student Assessments?

Yes, you will have access to the assessments once a student completes. You can view these full reports and print them from there. In order to do this, from your EdITS dashboard/homepage, follow these few steps.

- 1) Select the Examinees tab on the left hand side of the screen. You will see a list of the students who have taken the test.
- 2) On the right hand side of the screen you will see a column titled "Actions." From there, select the "Products" link for your student and you will see the test products that have been completed.
- 3) Finally, select "Launch" and the full assessment description will open up. From this screen you can print it just like any other web document. Below is a screen shot I hope will help.

The screenshot shows the Montana School Products interface. On the left is a navigation menu with the EdITS logo and links for Home, Information, Products, Examinees (circled with a '1'), and Administrators. The main header displays 'Montana School Products' and a welcome message for 'Specialist (specialist@school.com)'. Below the header is a table with columns: Username, First Name, Last Name, Email, and Actions. A row shows a student named 'Student' with email 'student@school.com'. An arrow points from the 'Examinees' tab to this row. The 'Actions' column for this student contains links for 'Reset Password', 'Products' (circled with a '2'), 'Assign', and 'Move'. Below this is a table with columns 'Products' and 'Date Assigned'. A row shows 'COPSystem with Briefs' assigned on '2015-10-08'. An arrow points from the 'Products' link in the first table to this row. The 'Products' table has an 'Actions' column with a 'Launch' link (circled with a '3').

Username ▶	First Name ▶	Last Name ▶	Email ▶	Actions
